

MY MONEY

The Swiss financial centre is responsible of **20x** the national emissions of Switzerland.

60% of our financial assets in the pension funds are invested in shares or bonds.

THE **BANK** OR THE **PENSION FUND** WE CHOOSE, AS WELL AS OUR **INVESTMENTS** PLAY A **KEY ROLE** IN THE TRANSITION.

1 CHOOSE A SUSTAINABLE BANK/PENSION FUND

Sustainable alternatives, that do not invest in fossil fuels or unethical companies exist, even in Switzerland!

2 INVEST IN THE TRANSITION

'Impact investing' or financing social or environmental projects with a positive impact are important

3 ASK FOR TRANSPARENCY

Ask your bank/pension funds where they are investing. Find out where your money goes, ask your employer. Vote for this too.
